

BENJAMIN EMMANUEL

BACK-END AI ENGINEER

Abuja, Nigeria • +234 814 747 3130 • benemmy2020@gmail.com
GitHub: github.com/Benzyma99 • Portfolio: benjamin-portfolio-omega.vercel.app

PROFESSIONAL SUMMARY

Early-career Back-end AI Engineer with hands-on experience building RESTful APIs and practical backend systems using Python, FastAPI, PostgreSQL, TypeScript, and LLM APIs. Experience includes CRUD APIs, authentication, API documentation and testing, repository-pattern concepts, Git/GitHub, and environment-based configuration. Currently developing backend engineering skills through the FLYRANK AI Backend AI Engineering internship, including an LLM-powered support triage API. Also bring 5+ years of experience in operations, field coordination, data collection, team leadership, and stakeholder management.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript

Backend: FastAPI, Next.js, REST APIs, CRUD, Authentication & Authorization

AI / LLM: LLM API integration, prompt-based classification, structured outputs, retry/validation workflows

Databases: PostgreSQL, SQLite, Supabase

Dev Tools: Git, GitHub, VS Code, Docker fundamentals, Docker Compose fundamentals

API / Web: HTTP methods, HTTP status codes, Swagger/OpenAPI, API testing

Backend Practices: Environment variables, repository-pattern concepts, backend application structure

PROFESSIONAL EXPERIENCE

BACK-END AI ENGINEERING INTERN

FLYRANK AI | 2026 – Present

- Built and tested RESTful backend APIs using Python and FastAPI.
- Developed CRUD functionality for a task management API and implemented authentication and authorization in backend applications.
- Integrated an LLM API into a FastAPI service for support-ticket triage, including validation, retry handling, and structured outputs.
- Worked with PostgreSQL and SQLite for backend data storage and integration.
- Used Git/GitHub for version control, documentation, and publishing projects.
- Used Swagger/OpenAPI for API documentation and endpoint testing.
- Worked with environment variables and backend configuration while troubleshooting implementation issues.

FIELD ENUMERATOR & VOLUNTEER COORDINATOR

Productive Youths Development Initiative (PYDI), Kaduna | Mar 2025 – Mar 2026

- Coordinated field data collection activities supporting community development research.
- Supervised and mentored volunteer teams to support quality and timely project delivery.
- Collected, verified, and documented survey data while maintaining data integrity.
- Prepared field reports and maintained accurate project documentation.
- Coordinated data collection involving more than 200 respondents.

FIELD COORDINATOR (PART-TIME)

BOTENA Event | Nov 2024 – Present

- Coordinate logistics and administrative support for organizational programs and events.
- Manage communication with clients, vendors, and project stakeholders.
- Prepare progress reports and monitor implementation timelines.
- Assist with budgeting, procurement, resource allocation, and operational issue resolution.

OPERATIONS MANAGER

Amaris Diamond Event, Abuja | Jan 2022 – Oct 2024

- Managed day-to-day operations across more than 60 successful events.
- Supervised operational staff and coordinated workflows across departments.
- Negotiated vendor contracts and supported cost-effective service delivery.
- Developed operational procedures to improve efficiency and service delivery.
- Managed relationships with more than 40 vendors and coordinated scheduling, documentation, and client communication.

DATA COLLECTOR (CONTRACT)

Polaris Digitech, Lagos | Jan 2019 – Jan 2020

- Conducted household surveys and mapping exercises across multiple project locations.
- Collected and verified data from more than 500 respondents.
- Ensured data accuracy through validation and quality assurance procedures.

SELECTED TECHNICAL PROJECTS

LLM-POWERED SUPPORT TRIAGE API

[Python](#) | [FastAPI](#) | [LLM API](#) | [REST API](#)

- Built a backend service that classifies support requests using an LLM API.
- Added schema validation, retry/repair handling, and quarantine handling for invalid results.
- Implemented structured logging and evaluated the workflow against a test set.

FLYRANK TASK MANAGEMENT API

[Python](#) | [FastAPI](#) | [REST API](#) | [CRUD](#)

- Built a RESTful CRUD API for task management during the FLYRANK AI Backend Engineering internship.
- Implemented API endpoints for creating, retrieving, updating, and deleting application data.
- Documented and tested endpoints using Swagger/OpenAPI and published the project to GitHub.

AUTHENTICATION REST API

[TypeScript](#) | [Next.js](#) | [Supabase](#) | [JWT](#) | [Swagger](#)

- Built an authentication API using Next.js, TypeScript, and Supabase.
- Implemented JWT-based access control and protected routes.
- Added Swagger documentation for API interaction and testing.

PERSONAL DEVELOPER PORTFOLIO

[Next.js](#) | [TypeScript](#) | [Vercel](#)

- Built and deployed a personal developer portfolio showcasing backend projects, technical skills, and professional experience.

EDUCATION

BACHELOR OF SCIENCE (B.Sc.) PUBLIC ADMINISTRATION

Ahmadu Bello University, Zaria | 2026

DIPLOMA IN PUBLIC ADMINISTRATION

Ahmadu Bello University, Zaria | 2016

SENIOR SECONDARY SCHOOL CERTIFICATE (SSCE)

Queen International School, Kaduna State | 2013

ADDITIONAL SKILLS

Microsoft Word, Microsoft Excel, Microsoft PowerPoint, Google Docs, Google Sheets, Google Drive, digital reporting tools, data entry systems, report writing, stakeholder coordination, team leadership, problem solving, attention to detail.

LANGUAGES

English: Fluent **Hausa:** Fluent
